django girls

Free Python and Django workshop for women at EuroPython, July 2015

About

Django Girls is an initiative that is aiming
to introduce 30 women who've never coded
before to the world of technology and increase
the diversity. On the first day of EuroPython in
Bilbao, we're going to organize an one-day
workshop and invite girls from all over the world
to join us and learn how to build the internet
using HTML, CSS, Python and Django.

Target

30 women who never programmed before but are motivated to get into field, and who would share their experience with others

Date & place

Full day, 20 July 2015 at EuroPython, one of the biggest Python conferences in Europe, hosted this year in Bilbao, Spain.

Supporters

We will have 10 awesome coach volunteers and EuroPython will host the workshop and our Django Girls booth and sprint at the conference.

Team

Django Girls EuroPython 2015 is organized by Mikey
Ariel and Petr Viktorin from Brno, Czech Republic.
Mikey and Petr already co-organized the first Django
Girls Brno workshop in February 2015.

Mikey and Petr work at Red Hat, Mikey as a
technical writer as well as a community lead for
Write the Docs EU, and Petr as a Python developer,
Python meetup organizer, PyLadies CZ instructor
and program developer. Both sleep very little.

SPREAD THE WORD!

We're looking for kind souls and organizations that support the goal of bringing more women into technology to help us.

Reaching to the local communities is the most effective way to encourage women to try out programming. Many women simply have no idea that they can pursue these fields, and among those who do, many women do not feel that they are deserving or capable of trying it out.

Our goal is to change this mentality, help women conquer their fears and give them a friendly, inclusive, and supportive environment to explore the world of technology.

SPREAD THE WORD!

Here are some ways you can help:

Face 2 Face

- Mention our workshop to all the women you know!
- Share the workshop at your local meetup / company meeting

Website/Email

- Write about the workshop on your website
- Send an email to your community or employees

Social Media

- Follow/retweet @djangogirlsEP15
- Blog about us
- Share our website on Facebook and Google+

Thank you! 💜 django *girls*
